INVITATION

Subject: Invitation to an online information meeting on "Integrating Disaster Risk Reduction Education into the teaching of various school subjects" within the framework of the Erasmus+ KA2 Project "STEAME For Saving Life"

The Cyprus Pedagogical Institute invites you to an online information meeting on 28 January 2026, from 16:00 to 17:00, within the framework of the Erasmus+ KA2 Project "STEAME For Saving Life".

The Erasmus+ project "STEAME for Saving Life" aims to develop guidelines, educational activities and teacher-training material for integrating Disaster Risk Reduction Education (DRRE) into the school curriculum. The project employs the interdisciplinary STEAME approach, together with inquiry-based and experiential learning methodologies, in order to connect school knowledge with real-life situations and strengthen students' resilience to natural hazards and the impacts of climate change.

During the meeting, the objectives and activities of the project, as well as the training opportunities that will be implemented within its framework, will be presented. In addition, examples of activities related to the integration of disaster risk reduction education into the curriculum of various subjects will be showcased.

The meeting will take place online via Microsoft Teams and the participation link is provided below:

https://teams.microsoft.com/meet/34186496987816?p=0jknCU5IghgLxTEZGr

The information session is addressed to teachers, school principals and inspectors who are interested in learning more about the project and the opportunities for participation in its activities.

Dr Elena Hadjikakou

Director
