Implementation of training activities on the development of STEM activities that combine the achievement of objectives from various subjects with the achievement of objectives related to Disaster Risk Reduction Education (DRRE)

Programme Schedule

Session/Venue	Day and Date	Session Content
1st Pedagogical Institute	Wednesday 4/2/2026 (16:00-19:00)	- The Project "STEAME for Saving Life" - Promoting Disaster Risk Reduction Education (DRRE) through different school subjects within the school context - Activity examples
2nd Pedagogical Institute	Wednesday 11/2/2026 (16:00-19:00)	Experiential Workshop: Natural hazard scenarios and educational simulations - Bringing risk to life: Familiarisation with digital tools (AR/VR, Web Apps, etc.) for designing activities - Mapping risk: Thematic maps and geospatial analysis - activity design
3rd Pedagogical Institute	Monday 23/3/2026 (16:00-19:00)	Experiential Workshop: Using real-world data in educational activities - Simulations and scenario analysis - Use/analysis of real data and simulations in pedagogical activities - examples and activity design
4th Pedagogical Institute	Thursday 26/3/2026 (16:00-19:00)	Experiential Workshop: Using real-world data in educational activities - Simulations and scenario analysis (Part B') - Activity design
5th Pedagogical Institute	Tuesday 19/5/2026 (16:00-19:00)	Experiential Workshop: Using the Context-Based Learning methodology for activity design - Guidelines for designing DRRE activities in everyday teaching (approaches, methods and techniques) - examples - Design of DRRE activities by teachers

Seminar Trainers

Dr Eleni Papageorgiou, Cyprus Pedagogical Institute

Dr Kyriakos Matthaiou, Cyprus Mathematical Society

Dr Olga Markogiannaki & Dr Sotiria Stefanidou, SURE Competence Centre, Greece
