To:

1. School Advisors of the Directorate of Primary Education of Kozani
2. Principals and Heads of the schools in our area of responsibility

SUBJECT: «Invitation to a Two-Day Training Seminar on the topic: “ Integrating Education for Disaster Risk Reduction from Natural Hazards into the Primary Education Curriculum”»

The Directorate of Primary Education of Kozani, in collaboration with the Competence Center for a Sustainable and Resilient Built Environment Using Smart Technologies - SURE, the Cyprus Pedagogical Institute and the Cyprus Mathematical Society, are participating in the European Project **STEAME -DRREC (Disaster Risk Reduction and Climate Change Education)**, developed within the framework of **ERASMUS + KA2**.

The Director of Primary Education of Kozani and the Quality Supervisor of the Directorate of Primary Education of Kozani

invite you

to a two-day training seminar for Primary Education teachers on the topic: ***«Integrating Education for Disaster Risk Reduction from Natural Hazards into the Primary Education Curriculum»***.

The seminar will take place:

- Dates: **Tuesday, 21 October and Wednesday, 22 October 2025**
- Time: **16:30 – 20:00**
- Venue: **Multipurpose Hall, 19th Primary School of Kozani, ZEP**

The Project runs from 1st September 2024 until 31 August 2026, and aims to integrate education on reducing risks from natural disasters and climate change into the Primary School Curriculum of Greece and Cyprus. One of the main objectives of the Project is to strengthen teachers' skills, so that they can use the Project's activities in their teaching in order to achieve the objectives of the Curriculum across different subjects, as well as to design their own activities similar to those proposed by the Project.

The training action will take place in three (3) phases and concerns teachers who teach students aged 6 – 12 years, i.e. Primary Education teachers.

The **first phase** includes the training seminar, while in the **second phase**, teachers will apply the ideas of the "STEAME -DRREC" Programme in their classroom teaching. The **third phase** includes reflection and feedback, and therefore teachers will be asked to share their experience from applying the "STEAME -DRREC" methodology.

Participation in the training programme is limited to up to seventy (70) teachers, on a first-come, first-served basis, via registration at the form: <https://forms.gle/mRkk28Nyk5XtCV9U7>

Teachers who attend the programme will apply it in their classroom during the 2025 - 2026 school year and will take part in the entire evaluation and presentation process of the project; they will receive a certificate of participation in the European Erasmus+ educational programme Erasmus+.

The poster and the programme of the seminar are attached.
